

# FAST ATTACK SKIDS

## ATTACK 1

### STANDARD EQUIPMENT

- ▶ 13 HP twin impeller Darley® Davey pump with Briggs Vanguard engine
- ▶ 200 Gallon Pro Poly tank
- ▶ F4000 Hannay electric rewind reel
- ▶ 100' of 1" booster hose
- ▶ Self-priming up to 19'
- ▶ 1.5" or 2.5" NST suction adapter
- ▶ 1" tank recirculation
- ▶ 1.5" tank to pump and discharge

### Features

- ▶ Ergonomically designed
- ▶ Forkliftable to standard pick-up bed
- ▶ Solid pump performance for both grass and structural firefighting

#### Theoretical Friction Loss in 100' of 1" Booster @ 100 PSI

12 GPM	Nozzle	2 PSI
20 GPM	Nozzle	6 PSI
30 GPM	Nozzle	14 PSI

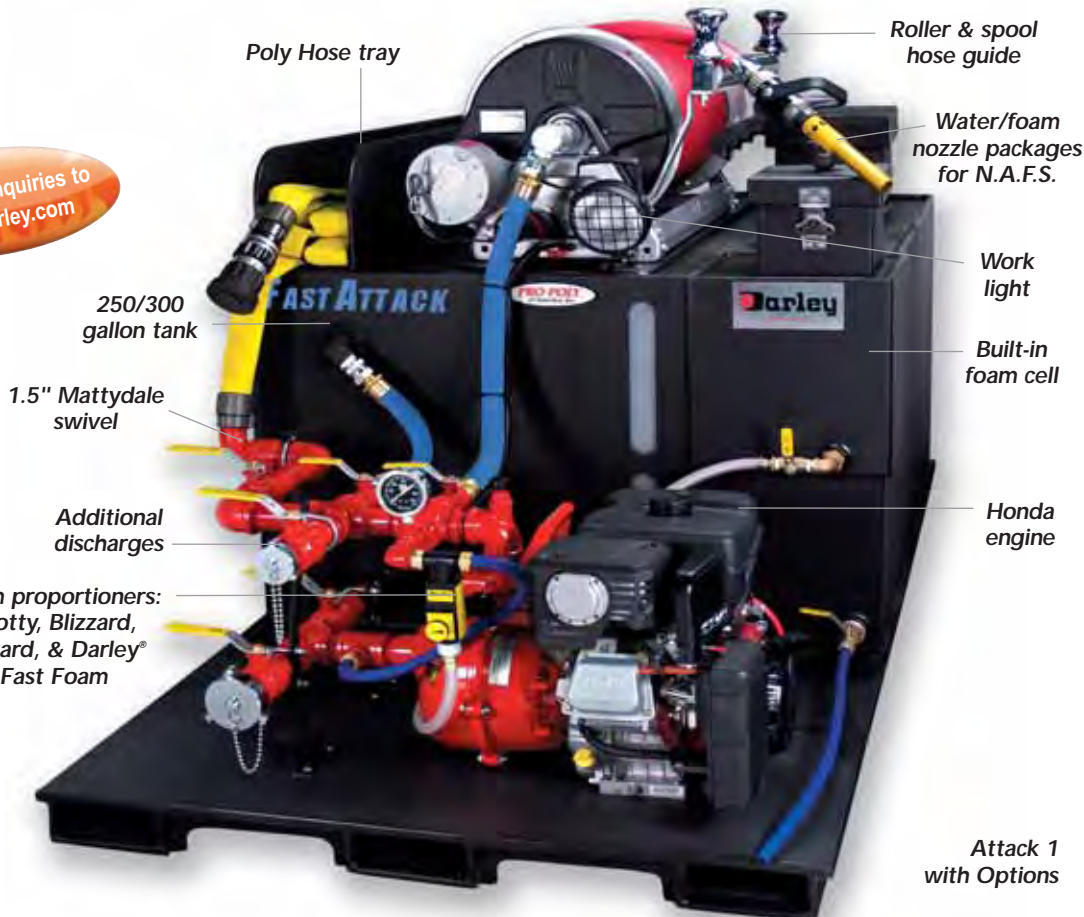

Attack 1

Model	Performance	Dimensions	Weight	Price
Attack 1	120 gpm @ 40 psi 95 gpm @ 108 psi 20 gpm @ 146 psi	Length: 94" Width: 48" Height: 42"	700 lbs. (318 kg)	\$8,300.00

Attack 1 with Options

# FAST ATTACK SKIDS

## ATTACK 2

The Attack 2 has the same tank and reel as the Attack 1 but standardizes on our gear-driven or direct-drive Darley® pump coupled to an 18 HP Honda engine with control panel.

### STANDARD EQUIPMENT

- ▶ Darley® 18 HP pump
- ▶ Exhaust primer
- ▶ 200 Gallon Pro Poly tank
- ▶ Hannay electric rewind reel
- ▶ 100' of 1" Booster hose

### OPTIONS

- ▶ Briggs Vanguard and diesel engines
- ▶ N.A.F.S. Nozzle Aspirated Foam Systems
- ▶ JakPak drop-ins bodies
- ▶ See the Attack 1 with options (opposite page)

Model	Performance		Dimensions	Weight	Price
	1.5AGE18H	2BE18H			
Attack 2	120 gpm @ 120 psi 75 gpm @ 190 psi 25 gpm @ 290 psi	370 gpm @ 25 psi 200 gpm @ 90 psi 100 gpm @ 135 psi	Length: 94" Width: 48" Height: 42"	900 lbs. (409 kg)	\$10,800.00

## CUSTOM BUILT

Darley® can custom design a package for just about any application with tanks from 50 to 500 gallons. Units can be provided with small diesel and gas 5.5 hp pumps all the way to 34 hp gas or diesel driven pumps.

# Optional Pump Accessories

## Darley AutoControl Governor

Darley recently unveiled its latest technical achievement, the new pump AutoControl Governor, which not only regulates pump pressure, but monitors all essential engine vital signs. This automatic pressure governor constantly monitors and adjusts the pump throttle to safely maintain the desired pressures.

- ▶ Pump intake and discharge pressures in both PSI and Kpa
- ▶ Pump cavitation alarm & adjustment back to idle
- ▶ Engine monitoring of oil pressure, water temperature, battery voltage, and engine RPM
- ▶ Preset function for instant and reliable operation
- ▶ Save money, a pressure relief valve or individual gauge controls are no longer required

**4216300** Darley® AutoControl Governor \$3,660.00

## Discharge Relief Valve

Darley relief valves are made of high-strength bronze alloy for corrosion resistance and long service life. For pressure relief, these valves will automatically activate at a preset pressure up to 800 PSI. Remote panel control provides ON/OFF selector valve, large handwheel pressure setting control, flush valve and strainer. A switch attachment actuates a pilot light to indicate when the valve is either open or closed. A mechanical override allows the valve to be closed manually. *Ship. wt. 35 lbs.*

**VR00700** 3" Thru 1500 GPM \$1,680.00

## Suction Relief Valve

Redesigned to meet the requirements of the latest edition of NFPA 1901. We removed the "ON/OFF" valve and the "MANUAL OVERRIDE" features, but the "guts" of the valve are the same as the discharge relief valve that has logged over 20 years of reliable service. *Ship. wt. 35 lbs.*

**VR00500** Suction Relief Valve \$1,290.00

## Darley Fuel Tanks

Darley's fuel tanks are another great accessory for your portable pump. The plastic fuel tanks are available in 3 and 6 gallons. *Ship. wt. 4 lbs.*

**KE00101** 6 Gal. Fuel Tank \$130.00  
**KE00116** 3 Gal. Fuel Tank \$130.00

## Rotary Vane Primer

Positive displacement rotary-vane vacuum pump for 20' to 28' suction lifts with any make, capacity, or style fire pump. Constructed of aluminum alloy, heat-treated and hard-coat anodized to take the punishment of fire service. Solenoid-operated motor runs from vehicle's electrical system. Priming system includes bronze push/pull valve with electric switch, and complete mounting and operating instructions. Rotary-vane priming pump with valve, solenoid and motor. 12 volt or 24 volt. *Ship. wt. 42 lbs.*

**AP00950** Rotary Vane Primer \$1,280.00  
**AP00960** Fluid-less Vane Primer \$1,280.00

## Darley Control Panel

Control panels are available on many of Darley's portable pumps. Standard panel includes a RUN/STOP ignition switch, a starter button, throttle, and liquid-filled gauges. It will also work with recoil rope start engines. *Ship. wt. 1 lb.*

**AC01104** Control Panel \$490.00

## Multi-Port Isolated Drain

This 6-port drain is designed with independent ports which virtually eliminate inaccurate gaugereadings. *Ship. wt. 4 lbs.*

**VD00401** Multi-Port Isolated Drain \$320.00

## Master Drain

Heavy brass tubing and plunger, stainless steel rod. Eight holes tapped for iron pipe fittings to hold copper tubing from up to eight locations.

**VD00102** Master Drain \$214.00

## Injection Packing

Packing adjustments are made simple with Darley Injection Packing. *One tube contains eight pellets. Ship. wt. 1 lb.*

**3817104** Injection Packing \$27.00

Introducing

# PuriFiRE

## SYSTEMS™

by Darley

Darley is excited to announce a complete line of quickly deployable water purification systems that can be used by first responders to aid in establishing and maintaining a potable water supply in the event of an emergency situation.

A total of six PuriFire systems have been developed. Systems have been designed for both municipal and military applications.

The municipal PuriFire systems are designed to work with the pump on a fire apparatus, or in conjunction with an in-place water department. The systems are available as both portable, self-contained units and systems that are integrated with fire apparatus.

Model 3S3P

U.S. Patent Pending #12/348716

### PuriFire System Model 3S3P

- Power source: Vehicle, 12 VDC or 24 VDC
- Purification process: 3 stages
- Disinfection: Ultraviolet light
- Capacity: 3 gpm
- Operating pressure: 45 psi
- Connection: Push-in quick connection
- Strong self-priming, auto-shutoff pump
- Cigarette lighter cable for power from a vehicle
- Reusable/washable filter
- Molded resin carrying case: 25" L x 20" W x 9" D
- Weight: 49 lbs.

### PuriFire System Model 4S10F

- Power source: Fire pump engine
- Purification process: 4 stages
- Disinfection: Ultraviolet light
- Capacity: 10 gpm
- Operating pressure: 150 psi
- Self-cleaning strainer
- Reusable/washable filter
- Ion exchange media filter
- Weight: 152 lbs.

### PuriFire System Model 3S3S

- Power source: Fire pump engine and 12 VDC
- Purification process: 3 stages
- Disinfection: Ultraviolet light
- Capacity: 3 ~10 gpm
- Operating pressure: 20 - 160 psi
- Self-cleaning screen strainer
- Polydepth and carbon block filters
- Stainless steel filter housings
- Weight: 150 lbs.
